

Reference 02-278

I do not want to allow people to bypass the Indiana "Do not call list. The reason I keep voting for Steve Carter is that the only thing I ever got from Indiana's Government that I wanted was his "Do Not Call List. Anyone who would vote to put a loop hole in this bill will NEVER get my vote the second time. This was the first law I have seen that truly looked out for the consumer. I remember the Banks calling most Saturdays and where are they less annoying than a fence company or a siding company. If I need something I know where to find a number to contact them. I used to just hang up as soon as I knew what kind of phone call it was anyway but it sure was a pain having to get up 4 or 5 times a day. I used to just love the ones that interrupted something that was important.....NOT....

PLEASE do everything in your power to put a stop to this.....

Thank you

David Gaither
